What is the Environmental Collection Center?

- A drive-through, drop-off site for environmentally-safe and easy disposal of household hazardous waste.

Why use the ECC?

- Dumping hazardous household chemical waste into storm drains is illegal. Since stormwater enters streams, rivers, and lakes without any treatment, this may result in water pollution. This waste should not be disposed of in your home trash/ recycling.

Who can use the ECC?

- All residents of Fort Worth and participating cities
- **Proof of residency** (current water bill, valid driver's license, voucher if required) is needed to drop off items at the ECC.
- Residents of participating cities should call your city or check www.fortworthtexas.gov/env for voucher requirements.
- **NO Commercial and Industrial Waste can be accepted.**

For questions about household garbage collection, recycling, brush and bulk waste disposal, e-waste or drop-off stations in Fort Worth: 817-392-EASY (3279) or www.fortworthtexas.gov/solidwaste. Learn more about recycling at www.timetorecycle.com.

Crud Cruiser Mobile Collection Events

Waste Handling Procedures

- Leave chemicals in original, labeled container or label containers clearly.
- Place leaking containers in a second container of like material (ex. corrosives in glass, flammables in metal).
- Place items securely in the trunk of the car or bed of pickup. Then just drive through. Remain in your vehicle and allow staff to unload waste.
