INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and
Members of the City Council
City of Grapevine, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of the Grapevine Tax Increment Financing District Reinvestment Zone Number One ("TIF #1"), a component unit of the City of Grapevine, Texas, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise TIF #1's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of TIF #1, as of September 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 2, 2017 on our consideration of TIF #1's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering TIF #1's internal control over financial reporting and compliance.

**MANAGEMENT'S
DISCUSSION AND ANALYSIS**

THIS PAGE LEFT BLANK INTENTIONALLY

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Grapevine, Texas (the "City"), we offer readers of the Grapevine Tax Increment Financing District Reinvestment Zone Number One's (the "TIF") financial statements this narrative overview and analysis of the financial activities of the TIF for the fiscal year ended September 30, 2016. The TIF was formed to finance and make public improvements in the area surrounding the Grapevine Mills Mall, under the Tax Increment Financing Act.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the TIF exceeded its liabilities at the close of the fiscal year ended September 30, 2016, by \$28,125,824 (net position).
- At the end of the current fiscal year, the governmental funds reported an ending fund balance of \$28,125,824, a decrease of 20% in comparison with the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the TIF's basic financial statements. The TIF's basic financial statements are comprised of three components: government-wide financial statements, fund financial statements, and notes to the financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the TIF's finances in a manner similar to private-sector business.

The *Statement of Net Position* presents information on all of the TIF's assets, deferred outflows of resources and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the TIF is improving or deteriorating.

The *Statement of Activities* presents information showing how the TIF's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The TIF uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund financial statements include two funds: (1) the General Fund, which is used to account for principal and interest payments and economic development activities, and (2) the Capital Projects Fund, which is used to account for the cost of public improvements.

- **Governmental funds** – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government’s near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 12 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government’s financial position. As of September 30, 2016, the TIF’s net position was \$28,125,824.

The following table reflects the condensed Statement of Net Position:

CITY OF GRAPEVINE TAX INCREMENT FINANCING DISTRICT REINVESTMENT ZONE NUMBER ONE’S NET POSITION

	Governmental Activities	
	2016	2015
Current and other assets	\$ 28,125,824	\$ 34,967,286
Total assets	28,125,824	34,967,286
Deferred outflows of resources	-	15,450
Long-term liabilities	-	2,517,914
Other liabilities	-	14,688
Total liabilities	-	2,532,602
Net position:		
Unrestricted	28,125,824	32,450,134
Total net position	\$ 28,125,824	\$ 32,450,134

Analysis of the TIF's Operations

Governmental activities decreased the TIF's net position by \$4,324,310. Excess contributions into the TIF are being refunded to the contributing entities. The City entered into an agreement with Grapevine Colleyville School District (GCISD) on May 21, 2015 for the City and GCISD to share in the costs of building a fiber optics facilities system. This agreement includes the installation, maintenance, repair and the joint use of the installed system. The City shall have ownership of two ducts and the GCISD shall have ownership of one duct. The TIF transferred \$500,000 from the TIF Capital Projects Fund into a City Capital Projects Fund to record and capture the costs of this joint use project. GCISD matched this funding for this first year of the project development.

In 2012, the city entered into an economic development agreement for both interior and exterior improvements with the Grapevine Mills Mall which is located in the TIF zone. Since the execution of the agreement, the Grapevine Mills Mall management was able to complete two phases of the project and also recruited six premium tenants to this location. During FY16 these phases and accomplishments were met and the City paid the management company \$7,084,730.

On December 15, 2015 the City expanded the boundaries and extended the term of the Tax Increment Financing District Reinvestment Zone (TIF) Number One until December 31, 2038. The TIF will continue to promote and create mixed-use development and the project and financing plan outlines funding of approximately \$95 million.

FINANCIAL ANALYSIS OF THE TIF'S FUNDS

Governmental Funds

The focus on the TIF's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the TIF's financing requirements.

At the end of the current fiscal year, the TIF's governmental funds reported ending fund balances of \$28,125,824, a decrease of \$6,841,462 in comparison with the prior year.

DEBT ADMINISTRATION

Long-term Debt. At year-end, the TIF had no bonded debt outstanding.

(A Blended Component Unit of the City of Grapevine, Texas)**

NOTES TO BASIC FINANCIAL STATEMENTS

SEPTEMBER 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Grapevine Tax Increment Financing District Reinvestment Zone Number One (the “TIF”) was created on February 20, 1996. The TIF was formed to finance and make public improvements in the area surrounding the Grapevine Mills mall, under the authority of the Tax Increment Financing Act. The TIF is governed by a nine-member board of directors; five members are appointed by the Grapevine City Council, and the governing bodies of Tarrant County, Grapevine/Colleyville Independent School District, Tarrant County Junior College District and Tarrant County Hospital District appoint one member each. The TIF is a blended component unit of the City of Grapevine, Texas.

On December 15, 2015 the City expanded the boundaries and extended the term of the Tax Increment Financing District Reinvestment Zone (TIF) Number One until December 31, 2038. The TIF will continue to promote and create mixed-use development and the project and financing plan outlines funding of approximately \$95 million. These public improvements will include streets, water, and sewer and storm facilities, open space, parks and recreation. The amended TIF will fund these improvements only through 100% contribution of the City’s ad valorem increment tax that will be generated within the new designated boundary zone.

On January 19, 2016, the TIF Board as authorized by Section 311.011, 311.008 and 311.0085 of the Act and pursuant to Board Resolution TIF #1 2016-001, amended the Plan to establish a TIF Educational Facilities Category. On February 2, 2016 the City Council approved an ordinance to amend the project and financing plan for the TIF #1. The goal of amending the TIF #1 is the continued funding of the construction of needed public infrastructure and to encourage private development.

The accounting and reporting policies of the TIF conform to accounting principles generally accepted in the United States of America as applicable to governmental entities. The following is a summary of the more significant accounting and reporting policies.

The General Fund is used to account for the principal and interest payments of the debt and economic development activities. The Capital Projects Fund is used to account for the expenditures related to construction. All construction in progress and completed capital assets are transferred to the City.

A. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the TIF.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. The TIF does not report any program revenues.

Separate fund-based financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are earned.

Government fund-level financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the TIF considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Property taxes are recognized in the year in which they are levied. Investment earnings are recorded as earned since they are measurable and available.

C. Budgets and Budgetary Accounting

An overall project budget was included in the plan to create the TIF and was approved by all parties involved. Annual budgets are not adopted.

D. Assets, Liabilities and Net Position or Equity

1. Cash and Investments

Investments for the TIF are reported at fair value, except for the position in investment pools. The TIF's investment in pools are 2a7-like pools and are reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

2. Long-term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

3. Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the TIF is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- **Nonspendable:** This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. Nonspendable items are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- **Restricted:** This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- **Committed:** This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

- Assigned: This classification includes amounts that are constrained by the TIF’s intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board.
- Unassigned: This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the TIF considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the TIF considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

4. *Deferred Inflows/Outflows of Resources*

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The TIF currently has no deferred outflows of resources to report.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The TIF currently has no deferred inflows of resources to report.

II. CASH AND INVESTMENTS

The cash and investment policies of the TIF mirror the City of Grapevine’s policies. City policies governing bank deposits require depositories to be FDIC-insured institutions, and depositories must fully collateralize all deposits in excess of FDIC insurance limits.

Investment in City cash and investment pool	\$ <u>28,104,166</u>
---	----------------------

Interest Rate Risk. In accordance with its investment policy, the City minimizes the risk that the interest earnings and the market value of investments in the portfolio will fall due to changes in general interest rates, by:

- a. Structuring the investment portfolio so that investments mature to meet cash requirements for ongoing operations, thereby avoiding the need to liquidate investments prior to maturity.

- b. Investing operating funds primarily in certificates of deposit, shorter-term securities, money market mutual funds, or local government investment pools functioning as money market mutual funds.
- c. Diversifying maturities and staggering purchase dates to minimize the impact of market movements over time.

Credit Risk. In accordance with its investment policy, the City minimizes credit risk, the risk of loss due to the failure of the issuer or backer of the investment by:

- a. Limiting investments to the safest types of investments.
- b. Pre-qualifying the financial institutions and broker/dealers with which the City will do business.
- c. Diversifying the investment portfolio so that potential losses on individual issuers will be minimized.

Concentration of Credit Risk. The City's investment policy allows up to 100% to be invested in U. S. Treasury Bills/Notes/Bonds and U. S. agencies and instrumentalities. The City's investment in the securities of U. S. agencies are rated AAA by Standard & Poor's. TexPool and LOGIC are public funds investment pools operating as a 2a-7 like pool and in full compliance with the Public Funds Investment Act. As of September 30, 2016, the City's investments in TexPool and LOGIC were rated AAAM.

Custodial Credit Risk. State statutes require that all City deposits in financial institutions be fully collateralized by U. S. Government obligations or obligations of the State of Texas or its agencies. The City's deposits were fully collateralized, or have a letter of credit issued by the Federal Home Loan Bank as required by State statutes at September 30, 2016. The bank balances were fully collateralized by government securities.

III. LONG-TERM LIABILITIES

Long-term liabilities consisted of Combination Tax and Tax Increment Reinvestment Zone Revenue Certificates of Obligation, Series 2009A, due in annual installments from August 15, 2009 through February 15, 2016, at interest rates from 2.5% to 5%, issued in the amount of \$14,290,000, all of which had been retired at September 30, 2016.

	Balance 9/30/2015	Additions	Retirements	Balance 9/30/2016	Due Within One Year
Bonds payable:					
Combination Tax and Tax Increment Reinvestment Zone Revenue Refunding Bonds, Series 2009A	\$ 2,350,000	\$ -	\$(2,350,000)	\$ -	\$ -
Issuance premiums	<u>167,915</u>	<u>-</u>	<u>(167,915)</u>	<u>-</u>	<u>-</u>
	<u>\$ 2,517,915</u>	<u>\$ -</u>	<u>\$(2,517,915)</u>	<u>\$ -</u>	<u>\$ -</u>

IV. APPRAISED VALUES

A summary of appraised values for the TIF is as follows:

	Tax Year 2015 Appraised Value	1996 Base Year Appraised Value	Captured Appraised Value
City of Grapevine	\$ 269,067,367	\$ 7,647,325	\$ 261,420,042
County Hospital District	269,067,367	7,631,345	261,436,022
County Junior College District	269,067,367	7,631,345	261,436,022

The captured appraised value of the TIF is the total appraised value of all real property taxable by the unit and located in the reinvestment zone less the base year appraised value of all real property taxable by the unit and located in the reinvestment zone at the time the TIF was established (1996).

V. PLEDGED REVENUES

The Board of Directors for the TIF approved amending the Financing and Project Plan to allow the creation of a 380 category within the Financing and Project Plan whereas all City funds contributed to date and additional funds contributed up to 2016-2017 be placed in a 380 account in the TIF zone to incentivize further economic development in the zone. The action was passed by the Board on September 8, 2009.

In fiscal year 2012, the TIF approved an economic development agreement with Grapevine Mills LTD Partnership in an amount not to exceed \$14,000,000 for interior renovations (\$10,000,000) and future exterior improvements (\$4,000,000) at Grapevine Mills Mall.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor and
Members of the City Council
City of Grapevine, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund Grapevine Tax Increment Financing District Reinvestment Zone Number One ("TIF #1"), a component unit of the City of Grapevine, Texas, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated March 2, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered TIF #1's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the TIF #1's internal control. Accordingly, we do not express an opinion on the effectiveness of the TIF #1's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether TIF #1's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
